Strength Meets Lightness

Ganga – Self Compacting Concrete

Sudarshan – Concrete Without Cracks & Waterproof

Ganesha – Fiber Reinforced Concrete

Pawan - Strength Meets Lightness

Hanuman - Durable Concrete

Lakshman - Temperature Controlled Concrete

Shankara - Concrete that fights with Corrosion

Strength Meets Lightness

BUILD THE FUTURE WITHOUT THE WEIGHT OF THE PAST

Modern construction isn't just about building higher — it's about building smarter. Every extra kilo added to a structure means more cement, more steel, more cost. Traditional fillers like sand offer bulk, but no real benefit. In fact, they burden your project with excessive dead weight, inefficiency, and escalating expenses.

**It's time for a solution that lifts the weight —
from your structures and your budget.**

मजबूत कोंक्रीट
अटूट विश्वास!

A smart, lightweight concrete engineered for modern construction.

Infused with advanced lightweight aggregates and expanded polystyrene technology, FeatherCrete delivers the strength you need while reducing non-essential mass. Designed to flow, fill, and function effortlessly, it minimizes dead load without compromising structural integrity.

Whether you're insulating rooftops or casting screeds for cantilever balconies, FeatherCrete adapts to every challenge with speed and precision.

Variants & Specs

What Makes FeatherCrete a **GAME-CHANGER?**

- **50% Lighter Than Sand-Based Fillers**
- Accelerated Application & Pumpability – even at high-rise levels
- **Reduces Labour Costs** – fewer hands, faster completion
- **Enhanced Thermal and Acoustic Insulation**
- Eco-Smart – sustainable, efficient and engineered for the future

Key Applications

Roof & floor
Insulation
layers

Screeds for
balconies,
sunken slabs

Filler in precast
and voided
panels

Backfilling
for trenches

Lightweight
underlayments

Composite
slab systems

मजबूत कोंक्रीट
अटूट विश्वास!

Strengthening...
